

As a first time mum, I was told to choose a Pediatrician; a difficult task before having the baby right :) So, I selected NOVA Peds because of their location, their website contained more detailed information, they have 2 locations which are open on alternate Saturdays, they have a 24hr assistance line and more importantly, they have a Lactation Nurse on site!

As far as Dr's; Dr Hanna came to the hospital to check on my baby and she was very kind and comforting. We met again with her at our 2 week appointment and now we are very happy to have her as our baby's doctor!

Her attentiveness and guidance was outstanding and we look forward to keeping our baby healthy with Dr Hanna's support!

Dr Meyer was the one who discharged our baby from the hospital and she was also very nice. And we did meet with the Lactation nurse, Ms Dee and she was amazing. She gave us a lot of advice and I will continue to see her to get her assistance as well.

Thanks NOVA Pediatrics for making our new family feel secure!
